

## Mobile Vet Center Program

Department of Veterans Affairs maintains a fleet of 70 Mobile Vet Centers (MVC) that are designed to extend the reach of Vet Center services through focused outreach, direct service provision, and referral to communities that do not meet the requirements for a “brick and mortar” Vet Center, but where there are Veterans, Servicemembers, and their families in need of services. In many instances these communities are distant from existing services and are considered rural or highly rural.

Each MVC includes confidential counseling space for direct service provision as well as a state of the art satellite communications package that includes fully encrypted tele-conferencing equipment, access to all VA systems, and connectivity to emergency response systems. Vet Center staff regularly collaborates with VA partners to create a single VA Footprint at events to ensure access to all available VA services and benefits.

The placement of these vehicles is designed to cover a national network of designated Veterans Service Areas (VSA) that collectively covers every county in the continental United States, Hawaii, and Puerto Rico.

### Scheduling a Mobile Vet Center

To have a MVC and Vet Center staff participate in upcoming events where Veterans, Servicemembers, and their families are expected to be in attendance please email

[Vetcenteroutreach@va.gov](mailto:Vetcenteroutreach@va.gov)

### Vehicle Space Requirements

(To ensure proper access to satellite equipment and wheelchair lift)

Large MVC: Length: 42 ft., Width: 12 ft., Height: 14 ft.

Streamlined MVC: Length: 32 ft., Width: 12 ft., Height: 13 ft.

Large MVC

Streamlined MVC
