

INCREASE YOUR STUDENTS' CREDIT FOR PRIOR LEARNING CAPACITY

Become a Member of the **ACE Credit College and University Network**

Become an institution known for facilitating student success and educational attainment. Add the transfer of ACE credit recommendations for military, workforce, and corporate training to your institution's credit for prior learning (CPL) options.

NETWORK MEMBERS BENEFIT IN A NUMBER OF WAYS:

- ✓ Prospective students will be linked directly to your institution's website and CPL policies on ACE's website.
- ✓ Institutions have access to complimentary or discounted resources, tools, and services.
- ✓ Institutions can request technical assistance and training for implementation or expansion of CPL programs.
- ✓ Institutions have the opportunity to collaborate with ACE's College Credit Recommendation Service (CREDIT[®]) organizations to create innovative, customized career pathways.
- ✓ Students with ACE credit recommendations for transfer credit can contact ACE staff for assistance.

Join the new ACE Credit College and
University Network today at no cost.

LEARN MORE ABOUT OUR PROGRAMS

For more than 60 years, ACE has provided faculty-driven evaluations of training to validate college-level equivalencies. The ACE Credit College and University Network is separate from ACE's institutional membership and requires no fee to join.

Prospective students use the network to locate institutions that may accept their ACE credit recommendations.

CREDIT[®]

Through CREDIT's third-party evaluation of workforce and corporate training, adults can gain academic credit.

Military Evaluations

The review of military training and occupations helps students with military backgrounds receive equivalent college credit.

College and University Partnerships

College and University Partnerships (CUP) collaborates with institutions, higher education systems, and organizations (e.g., Fortune 500 companies, federal and state agencies, nonprofit associations) to create collaborative career pathways to postsecondary credentialing.
