Our Programs

**Student Achievement**
MCEC believes that enabling students to thrive and succeed in our education system by providing them the tools necessary to become college-, work-, and life-ready, is of the highest importance. *Student 2 Student®* programs at the elementary, middle, and high school levels bring military and civilian children together to welcome new students, support academic excellence, and ease transitions as students pass in or out of schools.

MCEC Student 2 Student®

Student to Student is a student-led and faculty-advised program with the mission to take care of new students. An S2S® program shows students their new campus, and introduces them to their new community. It provides fun ways for new students to get to know other students, to build new peer groups, and encourage new students to perform better in school. S2S impacts the entire student body by uniting the campus to build a culture of inclusion. The results are improved academic performance and positive peer-to-peer interactions.

Programs are for all three school levels: high school, middle/junior high school, and elementary school.

An S2S team should:

• Provide every new student a tour
• Eat lunch with the new student
• Provide academic resources and encouragement
• Provide activities to the new student to help them meet others
• 100% Acceptance: Respect for EVERY student no matter their differences
• Actively engage in serving the school and community

“This training was fun and made me very confident about helping new people.”

FALL SEMESTER

United States Military Academy | West Point, New York
During the fall semester, the students learn leadership skills from West Point faculty, distinguished guest lecturers, and hands-on activities. These experiences are the same as those our future military leaders learn prior to starting their careers as officers. The evening activities include building lifelong connections with their teammates, sharing their own S2S programs, and goal setting with their new teammates.

SPRING SEMESTER

United States Air Force Academy | Colorado Springs, Colorado
A team of senior cadets, majoring in Behavioral Science and Leadership, build the annual Frances Hesselbein program starting the fall of their senior year. The week’s learning is structured around the core leadership principles taught to the cadets. The students are taught by the cadets and are provided experiences that build on the leadership principles. The week ends with a goal setting session for students to take back to their campus and implement.

Affiliates are employees of the district who are able to assume additional work responsibilities in support of military-connected students. Affiliates are part of the local education agency culture, on-site, and able to build relationships in order to problem solve at the local level. The Affiliate may facilitate the navigation through challenges based on student interests and strengths. The MCEC MSTA program plays a pivotal role in establishing collaboration among school systems, education agencies, community groups, and installation or national resources.

Each MCEC MSTA program has a targeted purpose, identified by the campus or district, based on feedback and historical experience of military-connected students in that location. A positive transition experience for military-connected students can be achieved with help from this trained professional embedded in the school district who is knowledgeable about both school district policies and practices and the unique needs of each student.
